WHO WE ARE

Enlightened are specialists in the supply of technical equipment to the event industry. We offer full production services, supported dry hire, design and delivery of permanent installations, competitive and intelligent sales, skilled repairs and maintenance to a diverse range of clients and venues.

Our full time staff have extensive expertise in: Lighting, Audio, Trussing, Staging and AV Equipment. We know how to achieve spectacular results.

We believe in close consultation and support at every stage of your project's creation, interpreting your ideas to create spectacular events that enthrall and delight your audience.

Established in 1999 and based in Bristol, Enlightened is one of the largest event suppliers in the South West, with over 17,000 Sq Ft of warehouse, our hire stock inventory includes the very latest in entertainment technology. Our long standing relationships with top quality industry manufacturers enable us to sell, install and repair equipment across the UK.

Our award winning Installation team has experience in design and installation of complete technical fit outs to a variety of venues. Enlightened delivers permanent installations to schools, universities, arts spaces, drama studios, theatres, concert halls and latterly a good number of houses of worship. Our team test and maintain our installations placing a high value on our client's trust.

Our approach to everything that we do is one of complete honesty and integrity. This allows Enlightened to provide an open and friendly high quality service throughout.

HIRE

Our hire stock is maintained to the highest standard to ensure a safe and reliable service. With our fleet of vehicles we are able to offer delivery and collection anywhere in the UK. We are confident that we can provide a cost effective solution to meet your requirements.

We supply high quality equipment from industry standard brands for all areas of:

- Lighting
- Sound
- Audio Visual and Video
- Staging
- Power Distribution
- Draping
- Special Effects

We stock and can supply everything you may need for your production from high quality theatre lighting, sound equipment, staging, radio microphones, power distribution and dimming systems, to drapes and special effects.

We understand that not all our clients are the same and that while some will approach us with an exact list of equipment for us to supply, others may want more support in their selection. This support is always available from our friendly and experienced staff, who can provide demonstrations of all equipment by prior arrangement.

PRODUCTION

However large or small your event, our experienced production team are there to ensure your event's success. We've managed and run events of every conceivable size and arts discipline from beautiful bespoke parties to full on festivals.

Our talented and seasoned production team are there to help and advise you at every stage of your event's planning. We stock a huge variety of equipment available for immediate hire, which combined with our production team's expert technical knowledge ensures your event is in safe hands.

We understand how important attention to detail is for our clients and our experienced, qualified, professional crew and technicians know just how to realize your event's potential at every stage of the process, on time and on budget.

Whatever your creative vision, our dedicated and skilled production managers love a challenge and are always on hand to provide the most accomplished solution whatever your projects size and budget

We pride ourselves on being entirely transparent. With an open and public price list for all our equipment, our prices are based on equipment hires, crew and transport costs - no hidden extras or surprises.

Every project and client is important to us. We love what we do and we think it shows.

Our staff have undertaken external training that allows us to operate to the highest of standards, most notably the British Standard BS7909 and are full members of the Production Services Association and subscribe to all industry guidelines and safe working practises.

We provide full design, planning, delivery, build, operation and take down services to events across a diverse range of sectors and venues.

SALES

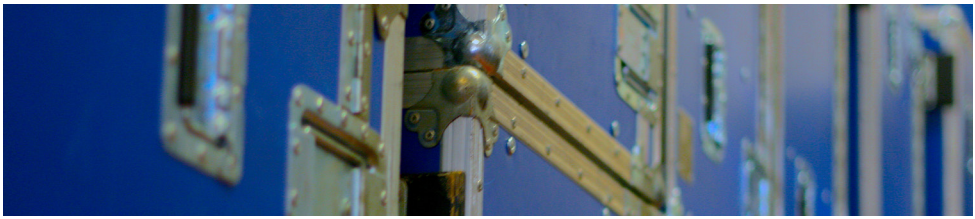
Enlightened prides itself on the level of customer support and in house technical knowledge offered to customers. Having direct accounts with the industry's leading manufacturers means that in addition to an unrivalled service, we are able to offer best pricing for:

- Lighting Equipment
- Sound Equipment
- Consumables
- Staging
- AV Equipment
- Power Distribution
- Pyrotechnics and Special Effects

With a good stock holding of products, components and consumables in our Bristol warehouse, we are confident of offering a prompt service to our clients.

We offer a same or next day delivery service for most items. If we do not have something in stock, our strong relationships with manufacturers usually means that delivery time is kept to a minimum.

If you have an enquiry about sales or wish to discuss any projects we would love to hear from you. Please call us on **0117 9727 123** or email us at **sales@enlx.co.uk**



PAT TESTING AND SERVICING

Enlightened provides a portable appliance testing (PAT) service to ensure that your equipment is safe. Testing is usually completed annually for all electrical equipment such as lanterns and control desks. Our staff complete a thorough test of items, carry out minor maintenance and cleaning of equipment. Once testing has been completed you will be presented with a set of test results. PAT testing can be completed either at our warehouse or on site.

As NICEIC approved contractors we can complete electrical and rigging tests on your fixed installation to ensure that it is safe and in good working order.

We also have dedicated workshop facilities for undertaking in-depth equipment repairs and completing general servicing.

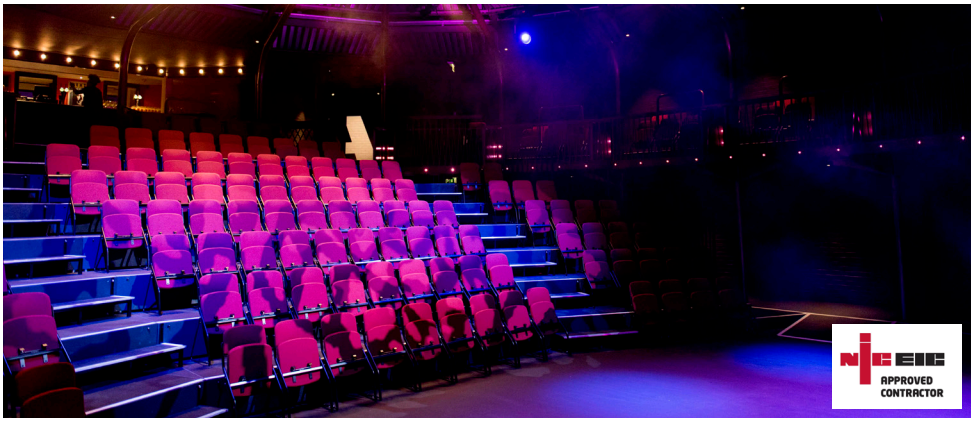
INSTALLATION

Enlightened has full NICEIC accreditation and our installation team has extensive experience in the installation of technical performance equipment across a wide variety of venues large and small. We specify industry standard equipment using professional brands, and always aim to provide an element of future proofing whilst at the design stage.

Working closely with architects and consultants from the outset ensures that new build projects encompass suitable technical facilities as required. We have a proven track record of providing installation works for:

- Schools, Colleges and Universities
- Professional Theatres and Arts Centres
- Live Music Venues and Nightclubs
- Houses of Worship
- Conference Facilities
- Museums and Galleries
- Tourist Attractions
- Commercial and Government Premises

Our award winning and experienced venue technicians can help, whether you require a single fixture or full theatrical fit out.



If you are replacing an existing system or simply adding to its capacity we know just how to make the best of your existing kit and ensure a seamless integration between old and new. Whatever your technical installation needs our team are happy to help whether it be for a single fixture or a full theatre fit out.

All installations are fully tested prior to sign off and meet the highest industry standards. Our team work closely with the client to ensure minimum inconvenience is caused during works and are happy to provide training and instruction on new equipment on a personal or group basis.

“Having undertaken a number of these projects, from design through to fit out, I see Enlightened’s role as fighting Hayesfield’s corner to achieve the very best in terms of technical infrastructure and practical usability. We both want to stand back and say ‘yes, this works, it’s exactly what we wanted’. ***Erica Draisey, Hayesfield*** *”*

HOW TO BOOK

Email or phone through your requirements. Our experienced staff are happy to offer advice and assistance if you do not know exactly what you want or need.

Email: hire@enlx.co.uk
Phone: 01179 727 123

Please include the following:

- **Show / event title**: A reference that gives the job a name.
- **Hire dates**: The dates you will collect and return or if require delivery and collection. Please also provide the address.
- **Your details**: Your contact details, including billing address, email and phone number.
- **Your requirements**

Payment:

Unless by prior agreement of credit terms, payment is required before the hire is collected or delivered.

Identification:

Photographic ID is required. A driving licence or similar is acceptable, to show your address.

Insurance:

Equipment is the responsibility of the hirer from collection or delivery. Enlightened can extend its own insurance policy. The charge for this is based on the equipment retail value. Please enquire for details.

Terms and Conditions :

Our full terms and conditions can be found at : http://www.enlx.co.uk/terms-conditions

STAGE STRUCTURES

MILOS MR1T 10M X 6M ARCHED ROOF SYSTEM

PRODUCT INFORMATION			
Outer Structure Dimensions	12.8m x 8.5m	**Stage Platform Dimensions**	10m x 6m
Maximum Height	5.90m	**Stage Area**	60sqm
Maximum Internal Height	5.60m	**Platform Height**	900 / 1200mm
Max Load Bearing Capacity	1650kg UDL	**Stage Floor**	Black Painted Ply
Max Wind Speed	62mph		
Walls	Solid or Mesh		
Ballast Required	up to 6000 Kg		
Estimated Build Time	8hrs		

PRICE: POA

STAGE STRUCTURES, Cont,

MILOS 5M X 4M GABLE ROOF SYSTEM

PRODUCT INFORMATION			
Outer Structure Dimensions	5.7m x 4m	**Stage Platform Dimensions**	5m x 4m
Maximum Height	4m	**Stage Area**	20sqm
Maximum internal Height		**Platform Height**	300 / 600mm
Max Load Bearing Capacity		**Stage Floor**	Black Painted Ply
Max Wind Speed			
Walls	Mesh		
Ballast Required			
Estimated Build Time	3hrs		

PRICE: POA

MILOS 3.7M X 2.5M GABLE ROOF SYSTEM

PRODUCT INFORMATION			
Outer Structure Dimensions	3.7m x 2.5m	**Stage Platform Dimensions**	3m x 2m
Maximum Height	2.5m	**Stage Area**	6sqm
Maximum internal Height		**Platform Height**	300mm
Max Load Bearing Capacity		**Stage Floor**	Black Painted Ply
Max Wind Speed			
Walls	None		
Ballast Required			
Estimated Build Time	3hrs		

PRICE: POA

CABLES & POWER

CABLES AND POWER DISTRIBUTION

All cables are listed for a 10m length, all other lengths are pro rata, with the exception of 2m cables, which are charged at the rate for 5m.

PRODUCT	DESCRIPTION	DAY RATE	WEEK RATE
13A Cable	2, 5, 10, 20m; black H07	**0.93**	**1.40**
13A Cable Twin Outlet	3, 5m; black H07	**0.93**	**1.40**
15A Cable	2, 5, 10, 20m; black H07	**0.93**	**1.40**

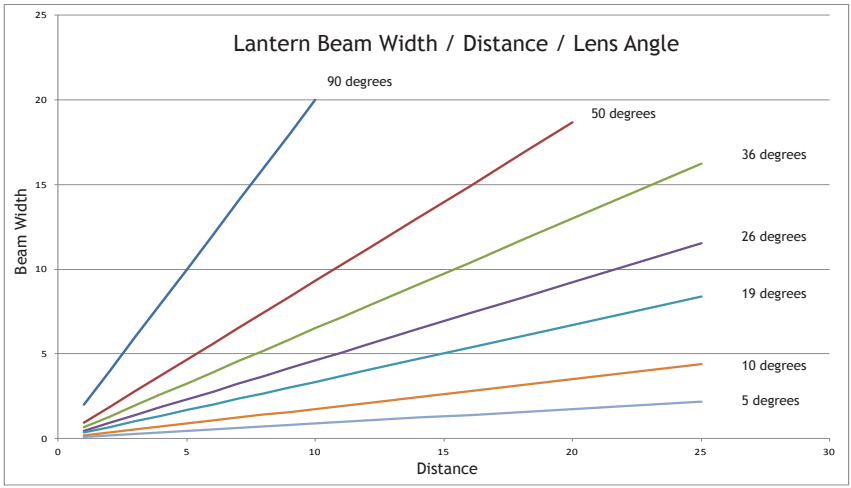
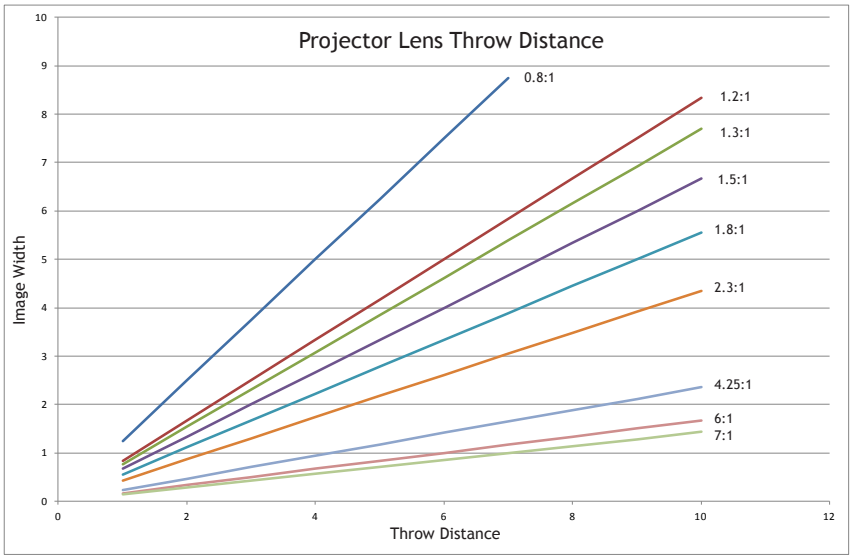
BEAM ANGLE AND LENS CALCULATOR





IP RATINGS EXPLAINED

The IP Code (Ingress Protection Rating) is made up of two parts. The first digit is the level of protection to solid objects, with the second digit being the level of protection against liquid.

Commonly used levels of protection in the entertainment industry are IP44 for outdoors, but much better still is IP56 or even IP68.

SOLID PARTICLE PROTECTION

The first digit indicates the level of protection that the enclosure provides against access to hazardous parts (e.g., electrical conductors, moving parts) and the ingress of solid foreign objects.

Level	Object Size Protected Against	Effective Against
0		No protection against contact and ingress of objects
1	>50 mm	Any large surface of the body, such as the back of a hand, but no protection against deliberate contact with a body part
2	>12.5 mm	Fingers or similar objects
3	>2.5 mm	Tools, thick wires, etc.
4	>1 mm	Most wires, screws, etc.
5	Dust protected	Ingress of dust is not entirely prevented, but it must not enter in sufficient quantity to interfere with the satisfactory operation of the equipment; complete protection against contact
6	Dust tight	No ingress of dust; complete protection against contact

LIQUID INGRESS PROTECTION

The second digit indicates the level of protection that the enclosure provides against harmful ingress of water.

Level	Protected Against	Testing For
0	Not protected	
1	Dripping water	Dripping water (vertically falling drops) shall have no harmful effect.
2	Dripping water when tilted up to 15°	Vertically dripping water shall have no harmful effect when the enclosure is tilted at an angle up to 15° from its normal position.
3	Spraying water	Water falling as spray at an angle up to 60° from the vertical has no harmful effect.
4	Splashing of water	Water splashing against the enclosure from any direction shall have no harmful effect.
5	Water jets	Water projected by a nozzle (6.3 mm) against enclosure from any direction shall have no harmful effects.
6	Powerful water jets	Water projected in powerful jets (12.5 mm nozzle) against the enclosure from any direction shall have no harmful effects.
7	Immersion up to 1 m	Ingress of water in harmful quantity shall not be possible when the enclosure is immersed in water under defined conditions of pressure and time
8	Immersion beyond 1 m	The equipment is suitable for continuous immersion in water under conditions which shall be specified by the manufacturer. Normally, this will mean that the equipment is hermetically sealed. However, with certain types of equipment, it can mean that water can enter but only in such a manner that it produces no harmful effects.

Gel Sizes

Rosco E-colour+/Lee Filters					
Roll	7.62m x 1.22m	**Full Sheet**	1.22m x 53cm	**Half Sheet**	61cm x 53cm

Supergel to Lee/E-colour Numbering System

Below is a rough guide for changing between Supergel and the Lee/E-colour numbering system.
Please note the colours are not designed to be the same and variations do occur. Enlightened cannot take any responsibility for reliability of the information below.
Colours indicated with a * are closest match and can vary considerably from the supergel colour
